God's Kitchen

Bloom where you are planted
**Local Schools Project
2025**

Dear School.

God's Kitchen is committed to combating food insecurity and promoting the well-being of children within our community. We recognize the significant impact that consistent access to nutritious meals has on a child's ability to learn, thrive, and reach their full potential. As winter approaches in 2025, we understand that the challenges faced by vulnerable families in providing adequate nutrition for their children can be amplified.

In response to this critical need, **God's Kitchen** is pleased to propose a comprehensive winter feeding program designed to support the learners of your school. Our initiative offers a reliable and efficient solution through the deployment of our mobile food truck directly to your school premises. This program will ensure that students have access to healthy and fulfilling meals during the colder months, contributing to improved concentration, attendance, and overall health in mind.

Our Personal Approach: Mobile Food Truck and Tag System

2025

To effectively deliver nutritious meals to your learners, We utilize a fully equipped mobile food truck. This allows us to bring our services directly to you, eliminating logistical burdens for the school and ensuring convenient access for students. Our mobile unit adheres to the highest standards of hygiene and food safety, and is operated by trained, caring personnel and volunteers from local businesses.

HOW CAN WE BE OF ASSISTANCE?

Central to our program is the implementation of a simple and efficient tag system. Each participating learner will be provided with a unique tag. This system will allow for:

Efficient Meal Distribution: Learners can easily present their tag to receive their pre-selected meal, streamlining the distribution process and minimizing wait times.

Confidentiality and Dignity: The tag system ensures a discreet and respectful way for learners to access the program, removing any potential stigma associated with receiving assistance.

Data Collection (Optional & Anonymous): With appropriate permissions and adherence to privacy regulations, the tag system can potentially provide anonymized data on meal uptake, allowing us to better understand the program's impact and refine our menu offerings.

Menu Management: The tag system can be linked to a set weekly menu, ensuring learners receive a balanced and varied diet. This allows us to plan and prepare meals efficiently, catering to nutritional guidelines.

Program Details:

Duration: Proposed dates **June 2025** through to **September 2025**

Frequency: **3x per week** or depending on the need to reach the number of children

Meal Type: Nutritious lunch, fruit and something to drink along with a treat.

Menu: A balanced weekly menu consisting of protein, carbohydrates, fruits, and vegetables. We are open to collaborating with the school on menu preferences and dietary requirements. This can be discussed upon meeting.

Delivery Method: Our mobile food truck will be parked at a designated location on the school grounds during specified hours of school breaks to serve meals.

Tag Distribution: The system we have formulated is to identify children that are in need of a meal. Whereby, the school can inform the learner and parent\guardian of the program. To keep the process discreet and confidential the learner will be issued a blue heart shaped tag and redeemed for a meal. This giving the sense of making a purchase rather than receiving a meal “handout”. Dignity plays a vital role.

HELPING OUR FUTURE GENERATION

Staffing: Our team will consist of trained food handlers and program coordinators responsible for meal preparation, distribution, and program management. Along with the support of local business and sponsorship, with team building events to strengthen the sectors. Building a stronger community environment. Bringing both young and old together for the greater cause. For the benefit of the learner and teacher, school alike:

Improved Student Health and Well-being: Consistent access to nutritious meals will contribute to better physical health, reduced instances of hunger-related ailments, and increased energy levels among students.

Enhanced Academic Performance: Well-nourished students are better able to concentrate in class, leading to improved academic engagement and performance.

Increased Attendance: By addressing food insecurity, the program can help reduce absenteeism often linked to hunger and related health issues.

Reduced Burden on School Resources: The mobile food truck model alleviates the need for the school to manage food preparation, storage, and distribution.

Positive School Environment: Providing support to vulnerable learners fosters a more inclusive and caring school community.

Community Partnership: Collaborating with your school demonstrates the school's commitment to the holistic well-being of its students and strengthens community partnerships.

“God’s Kitchen is dedicated to providing a reliable, high-quality, and impactful feeding program.” says the founder Bronson of God’s Kitchen

We are committed to:

- Utilizing fresh and nutritious ingredients.
- Adhering to strict food safety and hygiene standards.
- Deploying a respectful and dignified approach in serving learners.
- Maintaining open communication and collaboration with local schools.
- Seeking opportunities for program evaluation and improvement.

AT THE END OF THE DAY IT
ALL STARTS WITH
US!

OUR CALL TO ACTION

Our Call to Action:

We believe that our proposed winter feeding program, utilizing our mobile food truck and efficient tag system, offers a practical and effective solution to address the nutritional needs of your learners during the challenging winter months.

We are eager to partner with your school to implement this vital initiative and contribute to the health, well-being, and academic success of your students.

We invite you to discuss this proposal further and explore how we can tailor our program to best meet the specific needs of your school community.

Please contact **Cheldene (project manager)** on **061 581 3139** or via email **cheldene@godskitchen.co.za** to schedule a meeting.

We look forward to the opportunity to nourish the futures of the learners at **Wolraad Woltemade Primary School**.

Sincerely,
The Team at God's Kitchen
